

Robert F. Kennedy, in Bern, Switzerland, 12th November 2021

No government in the history of mankind has ever relinquished power voluntarily. All these powers, your government and my government have taken from our people over the last 20 months are not temporary powers, they are permanent powers.

And when you comply with tyranny you are sending a message to the tyrants which is "We can now impose new totalitarian controls. Because the people are ready. They are not resisting." Our duty as citizens, as human beings, as members of a democracy is to resist, resist, resist.

I want to say one word about the vaccine. In our country we only approved one vaccine. The Pfizer vaccine. And Pfizer was supposed to do a 3-year study. But after 6 months they cut it off. Why did they cut it off? Because after 6 months the vaccine has lost its efficacy and they could not get a permit if they continued the trial. So what did they do? They unblinded the trial and they gave the vaccine to all the placebo group.

Then they took all their data, from that 6-month period, and they gave it to FDA and they got approval. And I want you to go to Pfizer's website or FDA's website and look at that document. Because what that document says, the one metric that we should all care about, which is the metric of all-cause mortality. What that means is, of the 22,000 people in the vaccine group, how many died? In 6 months. And of the 22,000 people in the placebo group, how many died? After 6 months? You can go to table S4 and look at Pfizer's own data. And what it shows is, in the vaccine group, 1 person died of Covid. In the placebo group 2 persons died of Covid. So, Pfizer was able to tell the American people, FDA and the people of the world, that their vaccine is a 100% effective against death. Because 2 is a 100% of one. So, what Americans hear is that the vaccine is at 100% effective against death from Covid. What they think that means is if you get the vaccine, you have a 100% chance of not dying from Covid. But that's not what it means. What it means is they have to give 22,000 vaccines to prevent one person from dying from Covid. And what that means is, they better make sure that vaccine is safe for 22,000 people. That nobody is going to die from the vaccine. Because if one person dies from the vaccine, it cancels out one hundred percent of the benefits.

Oh! Now I'm going to tell you the bad news. In the vaccine group, 20 people died from other causes. In the placebo group, 14 people died of the 22,000 people, over 6 months, 14 people died in the placebo group of all causes and 20 people died in the vaccine group. What that means is if you take the vaccine, you are 48% more likely to die in the next six months as somebody who didn't take the vaccine. By the way, this isn't Robert Kennedy's data this is Pfizer's data.

Oh, how did all those actual people die? Here's how: in the placebo group, one person over the six-months period, of the 22,000 people, one person died of a heart attack. In the vaccine group, five people died of a heart attack. What that means is if you took the vaccine, you have a 500% greater chance of dying of a heart attack over the next six months, Pfizer's data!

So, for all of you who aren't good at maths, what that means is for every one person that the vaccine saves from Covid, it is killing four people from heart attacks.

And now, I did a press conference this morning. And during the press conference, somebody said to me, Switzerland is doing everything just like the United States. And I said, that's a mistake. In the United States, we have the highest body count from Covid of any nation on Earth. We have 4.2% of the global population and 14.5% of Covid deaths.

Anthony Fauci, who is our number one doctor, and I want a second opinion. He says, as we have the best policies, by following his policies, we have 2,100 deaths per million population. The Chinese who use chloroquine, which is like hydroxychloroquine, from the beginning, have 3 people per million population death from Covid. We have 2,100, the Chinese have 3. We have one of the highest death counts in the world per million population.

The reason we have those death counts is because we do not have a medical response to a medical emergency. We had a militarized response. We had a monetized response. There was nothing medical about it. Now for all of you who want to know how did this all happen. How did all the liberal democracies in the world suddenly pivot and do the same thing at the exact same time to abolish our Constitutions to enforce a coup d'état? Against democracy around the globe? To obliterate the middle classes. To transfer 3.8 trillion \$ in wealth from the working people of this world to the billionaires from Silicon Valley and all of these other globalist elites. Oh, here is how that happened. How many of you - raise your hand if you have heard of event 201. Oh, You can go, for those of you who have been living in a cave without a television, without computers, go and look-up Event 201, it's a very, very strange thing. And here it is, in October, you can, it's still on YouTube, they haven't taken it off yet, in October 2019, and here is what the US intelligence agencies are now saying about Covid. Covid began circulating on September 12 in Wuhan. And October as I remember Wuhan is already hurt, Covid is already circulating. Wuhan, nobody knows about it, supposedly we don't find out till December. But in October, there is a pandemic simulation called Event 201 in New York City. And what are they simulating? A global coronavirus pandemic. And it is a germ that escaped from a laboratory. And who is hosting this pandemic simulation? Two people: Bill Gates and Avril Haines the deputy director of the CIA. And Avril Haines was promoted directly after this event to be the number one spy of the United States, she is now at the head of the National Security Agency advising president Biden on coronavirus. Also present are high-level officials from Johnson & Johnson, the pharmaceutical industry, the Silicon Valley, companies that are now manipulating information, and the head of the Chinese CDC George Gao.

And they are not talking about how to have a health response to a pandemic. They are not talking about how to get vitamin C to the population and zinc, how to quarantine the sick, how to preserve constitutional rights in a pandemic. How to make sure that all the doctors are collaborated with to find the best early treatment of Covid or whatever disease it is. There is no discussion about public health. The entire exercise is about "How do we use a pandemic as a pretense to clamp down totalitarian controls democracies all over the planet". And I urge you to look at the last seminar at the pandemic in the simulation. They spent the entire afternoon talking about one subject: "How do we stop people from talking about the fact that it is a laboratory generated coronavirus." This is George Gao, of the Chinese CDC, and all of our Internet titans, and all of these global elites saying, "When people start talking about the fact that it is a lab release, how do we shut them up?"

My book, "The Real Anthony Fauci" comes out this week. And in researching that book, what I found was that simulation in New York Event 201 was not a one-off trick. They have been drilling the same thing every year since 2000. And their previous simulations have involved hundreds of thousands of people, front-line workers, top-secret from the United States, from Canada, from Australia, from all over Europe. So, they have been training people from the beginning about how to use a pandemic. Not to heal, not to save lives, but to impose totalitarian controls on constitutional democracies all over the planet. And the one thing, the one thing all of those simulations have in common, is a very heavy presence by the CIA. At every one of them, there are 3 or 4 or 5 CIA officials, Bill Gates is at many of them, and all of them have that in common.

Oh! As soon as this pandemic began, the first thing they did is to go after all of our constitutional rights in our country. The founders of our country, Thomas Jefferson, James Madison, Adams put freedom of speech in the first amendment. Because they said it's the most important right. Because if a government can stop you from talking, they have a license to commit any kind of atrocity that they want. And once they ended freedom of expression, they went after the next amendment freedom of religion. The government closed every church in the United States for a year. With no public hearing. And they kept the liquor stores open as essential business. I have nothing against them keeping the liquor stores open, but the liquor stores are not protected by the constitution and the churches are! And they went after property rights. Closed a million businesses with no just compensation and no due process at all. Nobody showed any science, they said lockdowns are going to work, there was no public hearing, no debate. One doctor ordered all the businesses closed. And we did what we were told.

And they went after jury trials. They said if a vaccine company or any other company that is doing a counter measure, if they injure you - we are entitled to a jury trial if a corporation hurts us negligently, but the new rule says, no matter how negligent they were, no matter how reckless they are, no matter how toxic their product, no matter how grievous your injury, you cannot sue them, you have lost your right to a jury trial in the United States of America. They abolish the right to due process, which means that if government wants to pass a law, they have to publish it, they have to explain it, they have to do an environmental impact statement, they have to show the science. All that is gone. It's just one technocrat who can tell you: put on a mask, social distance, shut your business, lock yourself in a house, I'm going to show you no science, do what you are ordered to do. The right is on.

And now we have lost democracy in the United States. There's only one of our Bill of Rights left and it's the second amendment. All the other ones are gone. And the same thing is now happening all over the world. And we have to understand that we are being manipulated with the use of fear. And, and for most people, fear shuts down the capacity for critical thought. For two-thirds of the people, fear will destroy their ability for independent critical thinking.

And they have created an international Stockholm syndrome, where everybody's locked in their houses, grateful for their captors, believing the only way they can survive is total compliance and total obedience to the people who put them in that position.

I came to Switzerland because Switzerland is the last bastion for democracy today in Europe. For 300 years the Swiss have been a peaceful people and people around the world have been fighting for democracy and the Swiss have been an island of peace. But today, the rest of the world is looking to Switzerland. To defend this is the front line and we are counting on the people of Switzerland, the last place where we have true democracy in Europe, to stand up and say no to these tyrants. And all of you need to go out and get your neighbors and make sure they vote in this election. You need to tell them that we need to love our liberty more than we fear a germ.

We understand that there are a lot of worse things to fear than death. And on top among those is a lifetime of slavery and servitude to Bill Gates and the Silicon Valley robber baron and to the big bankers who are trying to take away all of our rights and turn us into slaves. I ask all of you to go out and make sure you vote to win this not just for Switzerland but to win for all of humanity. I will see you all on the barricades and I promise you that I and many others are ready to die with our boots on for liberty. Thank you very much.
